Cath Newmarket Era.

Newmarket, Friday, August 16, 1861.

General Summary.

We understand that the next meeting of King Council will take place at Hotel's Hotel, Lloyds Road, on Wednesday the 28th inst.

It is said by some, that common salt will destroy the weevil. Those who use it, sow it broadcast like plaster—and about the same quantity per acre. Will some of our farmers try the experiment?

A meeting of the Directors of the North York Electoral Ag. Society will be held in Newmarket, on the first Saturday in September next—commencing at the

time of a new daily paper, issued at Toronto, by Mr. A. H. St. GERMAN. The first number announces that it will be Conservative, in its politics—yet independent. The paper is neatly printed, and gives evidence of much labor in the news and literary departments.

During the week Mr. Jas. JOHNSON, of Old Surrey, King, has left us a sample of his Spring Wheat. It does not appear to be affected with either the midge or weevil—the berry is large and plump—and the head well filled. We should judge, from the sample before us, that Mr. Johnson's crop would be an excellent one—both in quality and quantity.

The next Provincial Exhibition will be held in London, C. W., on the 25th, 26th, and 27th of September next. All entries, except in the Ladies' Department and Foreign classes, must be made by the 31st of August. Blank forms will probably be forwarded to the Secretaries of Ag. Societies throughout the country during the ensuing week, on which to make entries.

It was announced last week, that quite a large number of officers in the United States Army had tendered their resignation to the government. It now turns out, that the greater proportion of them were forgers—the first knowledge the officers received of the matter, being the notice of acceptance of their resignation by the War Department. An effort is now being made to sift out the guilty parties.

The Representation Question.

The Toronto organ of the Government says—"Mr. Brown is sorely distressed by a contemplation of a moderate settlement of the Representation Question." Will the Leader be kind enough to inform "half-a-continent" what he means by "Moderate settlement?" Does this imply the representation of 300,000 colish in Gaspe Bay &c or the altering of the boundaries of a few constituencies like Montreal and Toronto, so as the more effectively to influence the electors and thereby secure Moderate representatives? If all accounts be true, they have a man moderate enough in the member for East Toronto, in all conscience. The Leader, however, admits "existing inequalities" between the two sections of the country, a point he would not concede previous to the elections. This fact is indicative of a change in the "Moderate Platform," and as "coming events cast their shadows before," who knows but in the opening of the new Parliament Mr. Cartier may not appear as the champion of representation adjustment notwithstanding his "codfish" proclivities!

One word more: now that Mr. Brown is not a member of the Legislature, would it not be more seemly and becoming in the Leader and other journals that take their cue from that print, to make less use of that gentleman's name and deal with the principles advocated by the party with which he stood identified? What is the use of telling the people Brown would not accept this or that; or is opposed to this, or that? Why not speak of the party, instead of singling out an individual? It is not handsome and shows plainly that "Moderation" must be hard won when they most descend to mere personalities and imaginary vagaries.

At His Old Tricks!

The Richmond Hill Herald goes a long way about the bush to say something about the Era, in last week's issue.

Many and many a time, since its first publication, we have shown its duplicity and misrepresentation; but like the grantees returning to his wallowing in the mire, so the sly editor of that print persistently continues in his unfair mode of attack. We never asked, during the election of 1854, "what had Mr. BALDWIN done for the country?" but "what had he done for the County?" Suppos, however, we did, what had this to do with presenting Hon. Mr. Brown with a testimonial? What we said and done in 1854 was sustained by the Electors, and that is more than the Hill men can say. Every election from that time to the present has been carried in the constituencies around him contrary to his advice and in direct opposition to his pitiful appeals and fearful forbodings; but not so with regard to our position.

Again, the Herald says—"Mr. Price called upon the person who used such expressions, to come forward from his constituency, and he would explain it." Mr. Price and his constituents are

not to be found in the constituency, and

Price done nothing of the kind. During that campaign, we published the votes given by Mr. Price, on many important motions made by the late Mr. PEARY and W. M. LYON MACKENZIE, and Mr. Price and he would "explain why he voted against those measures," not that he was opposed to them in principle, but to have carried them at the time proposed would have been to defeat Ministerial measures and would have led to a change of government.

Next time the Hill man has anything to say, let him give facts,—and above all try and find something else to find fault with; besides what might be advanced in the heat of an election contest? Another thing,—let him wait till his own neighbors in East and West York believe in his doctrines and put faith in his teachings, before attempting to lecture others at a distance.

A Forlorn Hope.

The Quebec Chronicle accounts for Sir HENRY SMITH's opposition to the present Administration, by announcing that he had "formed a combination with parties in Lower Canada, for the creation of a new cabinet, of which he should be Premier." When Sir Henry's address appeared, in which he so violently denounced those who had elevated him to the position of Speaker in the Legislature—not finding there was a scrap loose somewhere—that the chance Knight had other objects in view than the welfare of the country or his constituents. It now turns out he was to be the head and front of a new government—the guiding star of the helm of state. As bad as we dislike the present Cabinet, we hope the day will be distant when the Knight of Kingston will be known as the Premier of Canada. Such a misfortune would be like "jumping out of the pan into the fire."

The American Tariff.

For some years this Province, through extravagant expenditures, advances, peculation and pickings, has been much bigger taxed than the neighboring Republic; but by the new tariff, just passed the American Congress, necessitated by the enormous cost of the present civil war, the United States will now supersede us in this respect. It is substantially a re-enactment of the Morrill tariff, with several important additions, viz:—

"15 cents on green beans; 10 cents on black beans; 5 cents on coffee and cacao; 25 cents on sugar—3 cents on clay, and 4 cents on refined sugar—all per lbs. Salt is raised to 16 and 20 cents per 100 lbs. The duties on manufactured goods are, as before, very complicated, being sometimes on the value, and often on a combination of these methods. The duty on woollen and cotton cloths is 12 cents per lb., and 25 to 30 per cent ad valorem. Thus, a coarse cloth, weighing a pound per yard, and costing 25 cents, would be charged 12 cents for weight and 6 cents for value, or 18 cents per yard, making the duty just 75 per cent. Cotton goods are charged 3 and 4 cents per square yard, and ten per cent ad valorem if needed, provided such charges combined are not less than 25 per cent ad valorem. Suits are placed at 20 to 30 per cent ad valorem. Bar Iron at \$14 per ton, and other kinds of Iron and Steel vary from \$20 per ton to 24 cents per lb."

Holland Landing Council.

Council met July 15th, 1861. All the members present, but Mr. Parsons.

The minutes of the last meeting were read and confirmed.

A communication from Jas. Lundy was read, respecting the road passing Capt. Loughlin's place being infested with thistles, and requesting the Inspector to provide for their removal.

Dr. Morton's deferred communication was taken up, and after some inquiry into the intended assessment of 1861 Dr. Morton presented an appeal from his assessment on lot 109 in the municipality.

Moved by Mr. Thorne, and seconded by Mr. Wilson,—that Dr. Morton's appeal be entertained and that the assessment on his property, part of Lot 109, be reduced from \$14.40 per acre to \$10, per acre.—Carried.

Mr. Thorne presented a By-law to appoint a bell ringer for the village.

Mr. Wilson presented a By-law for the destruction of Canada Thistles in this municipality.

Council resolved itself into a committee of the whole on By-law—Mr. Clark in the chair.

Committee rose and reported a By-law to appoint a bell ringer; lost in committee, the By-law for the destruction of Canada Thistles. The 33rd rule was suspended and the By-law was read a third time and passed.

Moved by Mr. Thorne, seconded by Mr. Clark.—That Messrs. Wilson McLeod, and the mover be committed to attend the Council of East Gwillimbury at its next meeting, and again press their undoubted right to a just and equal proportion of the Clergy Reserve Fund now in their hands, being paid over to this municipality.

On motion the Council then adjourned.

ANOTHER MEETING.

Council met on the 5th August—all the members present but Mr. Parsons.

The minutes of last meeting read and confirmed.

A communication was read from Messrs. Patterson and Harrison, respecting the Clergy Reserve money in the hands of the Township of East Gwillimbury, giving an opinion that this village has a right to a proportion of that money by the late amended municipal act.

The petition of Eli Cobbley, was read, respecting a portion of road requiring repair.

Moved by Mr. Thorne, and seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

Mr. Wilson moved a report of the committee appointed to attend East Gwillimbury Council on the 20th July, stating that only one being present, no action was taken.

Moved by Mr. Thorne, seconded by Mr. Clark, that the above petition be referred to the Road and Bridge Committee.—Carried.

CHANCERY SALE.

In Chancery,
Between William Brydon, Thomas Brydon, John Brydon, Gabriel Wells and Catharine Wells his wife.

PLAINTIFFS.

AND
James Brydon, Thomas Redden and Helen Redden his wife, William Redden, and Beatrice Redden his wife, Walter Brydon, Margaret Brydon, James Lloyd, William Lloyd and Margaret Lloyd, Benjamin Lloyd, Sarah Lloyd, Thomas Lloyd, Walter Lloyd, Ann Lloyd, Mary Lloyd, Andrew B. Brydon, George Brydon and Janet Ann Brydon, infants under the age of Twenty-one years and Elizabeth Brydon.

DEFENDANTS.

We have no Auction Sales to record since last; but prices of stocks in private hands have gradually stiffened in every article of general trade. Sugars are still at 4 cents per lb. advance, and in some cases more; and Tea and Tobacco have participated in the general feeling. Salt firmly at 50c; and for small lots, 55c is asked.

In this there is no movement, season being yearly.

We may say that in groceries generally there is a firm feeling, and every indication displayed of higher prices.

W. T. LEEHIN,
Commission Merchant,
23 St. Nicholas Street.

Montreal, Aug. 8th, 1861.

TORONTO MARKETS.

Toronto, Aug. 15.
The receipts of Fall wheat at our market would not exceed 300 bushels, which sold at prices ranging from 90c. to 95c. for good to medium, & \$1.05 for good to prime.

Two heads of the new crop of rye, Spring wheat—still none offering, with considerable quantity at 70c. a bushel.

Barley is in small supply at 40c., and in limited demand. Peas nominal at 40c. a 45c. Oats are in better supply at 32c., a 34c. per bushel. Potatoes plentiful at 45c., a 50c. per bushel. Fresh butter is in limited supply at 18c. a 20c. per lb. Flour is well change.

NEWMARKET MARKETS.

Newmarket, Aug. 16, 1861.
Fall Wheat 90c. 95c.

Spring Wheat 65c. 70c. per bushel.

Flour 40c. to 50c. per bushel.

Barley 30c. per bushel.

Peas 40c. per bushel.

Oats 30c. per bushel.

Potatoes 25c. per bushel.

Butter, per lb. (fresh) 10c.

Cheese, 10 a 11cts. per lb.

Eggs, per dozen, 8 cts.

Wool 20c. to 22c. per lb.

Fowler and Wells' Journals

HALLEN AND WILLSON,
CIVIL ENGINEERS,
AND
Provincial Land Surveyors.

THE Subscribers beg to announce that, having entered into a co-partnership, and being supplied with the most accurate instruments, they are now prepared to take orders in their respective branches, and hope by a strict regard to accuracy and dispatch, and a close general attention to business, to render their satisfaction to all who may favor them with their patronage.

With a view to meeting the exigencies of the times when three or more neighbors will join in having their lines run at the same time the unusually low rate of \$3.00 (three dollars) per mile run, will in general be adhered to. Reserving, however, the right to decide from local circumstances whether such lines shall be run by the price of 12c. per day.

Mr. HALLEN will be at Sutton the first Tuesday in September, at Bouthillier the 1st Tuesday in October, at Brownsville the 1st Tuesday in November, and at Stouffville the first Tuesday in December, 1861, at each of which places he will remain a few days.

S. W. HILLIX, ALFRED WILLSON, Jr.
Newmarket, Aug. 12th, 1861.

DEFERRED NEWS.
The Great Eastern will take a large number of passengers, all her first class berths, only three hundred being fitted.

Hon. Andrew Johnson has accepted the invitation of the Michigan State Agricultural Society, to deliver the annual address at the next State Fair in Detroit.

STATUE OF THE PRINCE OF WALES.—Active measures are taking in Montreal to obtain means for the erection of a statue in honor of the Prince of Wales.

The London correspondent of the Chicago Journal writes: "I hear that the Confederate Commissioners are at Paris, and out of money! They have to leave the Hotel de L'Europe; on account of not possessing sufficient for."

By recent act of Congress, confiscating the property of rebels in arms, General Lee will be driven off his Arlington estate. It embraces three hundred acres, and is the most valuable estate in the vicinity of Washington.—*Cap-Hill Enquirer.*

BUKE OF NEWCASTLE.—A Petition, signed by nearly 2,000 persons, praying for justice to the Canadian Orangemen insulted by the Duke of Newcastle, has been presented to the House of Commons from Belfast, by S. G. Getty, Esq. M. P.—*News.*

The Sherbrooke Leader says that Mr. John Felton, of Sherbrooke, has received his commission as Commander in the service, *etc.* *etc.* *etc.* last year, Mr. Felton's case having been brought under his notice by the Hon. Mr. Galt.

The Boston Commercial Bulletin says: "There is one mistaken idea that pervades the North, and that is—that the South is deficient in money. The people there have plenty, and our merchants here and in New York are in receipt, every day, of letters, wishing for goods sent to certain points and offering to pay the price."

Hon. S. B. Clay, son of Henry Clay, while endeavoring to smuggle several wagons loads of bacon to West Tennessee, for the use of the rebels in that quarter, was intercepted by a company of Union troops, who not only seized the merchandise as contraband, but obliged Mr. Clay and his wagoners to take the oath of allegiance to the National Government.

MORE RUMORS.—The *Globe* gives currency to rumors that Chief Justice Robinson retires on full pay; that Mr. Draper succeeds him as Chief Justice of Queen's Bench; that Mr. Vankoughnet becomes Chief Justice of the Common Pleas; that Mr. Barns becomes Chancellor, and that Mr. Morrison takes his place in the Common Pleas.

The Hamilton Evening Times of Saturday evening says: "One of the engine drivers named Ralph Shepard, belonging to the G. W. Railway, while attending to his duties in the engine-yard at the depot to-day, received a sun stroke, which we regret to say, terminated fatally in about twenty minutes after the occurrence. An inquest is now being held."

THOMAS FRANCIS MEAGHER.—This gentleman who bore so prominent a part in the rebellion of '48, was at the battle at Bull's Run. He was Captain of the Zouave Company attached to the 69th (Irish) Regiment, which it appears, in company with the 79th (Scotch), bore the entire brunt of the battle.

COTTON IN JAMAICA.—A letter from Jamaica, dated July 16th, says the British Cotton company have commenced operations with the very best prospects of success. The cotton shrubs planted in November last are now yielding their first crop, and the agent of the Company reports highly favorably on a point on which there were many grave doubts, namely, the command of labor. He has not only had willing and continuous labor, but had it cheap also.

BEAUREGARD.—According to Dr. Russell, correspondent of the London *Times*, the notorious Gen. Beauregard, of the Rebel Army is really named Pierre Gustave Tourtant. His father was a Frenchman, who had an estate that he called Beauregard, who used to sign his name Tourtant de (of) Beauregard. When he applied for a cadetship for his son he signed his name in this way, and the title was taken for his name, and the lad was called Beauregard, a name he has ever since assumed.

ELECTORAL RETURNS OF UPPER CANADA.—The *Toronto Globe* gives returns of the population of the several constituencies of Upper Canada, in connection with politics of the members elected. It would appear by this that taking population as the basis of representation, there is an overwhelming preponderance of opinion against the Ministry in that section of the Province. The sum total stands thus:—Opposition 810,442; Minister 623,901; Total 1,434,013.

HURON AND BRUCE.—This enormous constituency has polled not less than 9121 votes. At the close the numbers were,—Mr. Dickson, 5,088 votes; the Hon. Mr. Cayley, 4,333 votes; majority for the opposition candidate, 755. The *Globe* asks whether a county with such a population should be placed on a similar footing with Loyal, with its voters not numbering over 1,000. The injustice of such a disparity is manifest, and is rendered still more striking when we contrast Loyal with Quebec and her fifteen thousand voters!

MRS. P. S. RELATIVE TO THE LATE FIGHT AT BULL'S RUN.—Mrs. Partington's Kingston relative wants to know what the Yankees mean by the Molasses lines, Molasses Juncio, &c. The old lady has been questioning and cross-questioning her gold spectacles, as well as the neighbors, as to why they didn't shoot the Bull that ate the much consternation amongst the tea-parties, and lost the battle to the North. We left the dear old soul late last night in pursuit of knowledge under difficulties, vainly attempting with a pair of compasses and an old map, to demonstrate the direction in which the Bull ran after the fight,—"Whig."

A FOOLISH FEAT.—The Buffalo Republic states that during the exhibition of fire-works on the evening of the Fourth, a man from Toronto climbed the Liberty Bell, and then the iron rod which upholds the Eagle, and sat complacently for some time amidst the patriotic bird. He descended to the top of the pole proper, where he performed divers evolutions, such as hanging by his heels, making himself revolve on the iron rod, standing on one foot, hanging by one arm, &c. His daring and fool hardy feats made everyone's blood run cold. The Republic thinks it was not exactly a civil thing for a Canadian to go over to Xanadu and ride the sacred eagle.

SUNDAY IN ENGLAND.—The committee of the Lord's Day Society have recently called attention to the subject of Sabbath desecration by travelling. They calculate that the number of persons employed on canals and navigable rivers is 100,000; on railways 70,000; in connection with London cabs and omnibuses, 24,000; in the Post-office department, 20,000; in beer houses, about 275,000.

The following is from the Elora Observer:—"There appears to be enough game in the Township of Peel to occupy the attention of half a dozen hunters. One day last week a large bear deliberately trotted into a field, killed a sheep, ate his fill, and walked away as unconcernedly as if he still roamed in the forest where the track of the white man was unseen. His bearship returned in the evening, and commenced devouring the remainder of the mutton, when a ball from the sporting rifle of Mr. Elroy struck him, breaking the front leg; although crippled, bravo made his escape through the woods. Next morning the bear was brought to the ground by a rifle striking him on the back and breaking it. We learn that he was a moister, and would, had he been fat, weighed from 4 to 500 lbs. Deer are numerous in the same township, and so tame as to enter the fields of grain, close to houses, is the evening. There are wolves roaming about also, and their deeds of daring are without a parallel."

CRACRS IN LOWER CANADA.—We learn from the Eastern Townships that the hay crop is heavier than it has been for 15 years, housing it. The two last four windy dry days, were, however, invaluable, and a large quantity of hay has been secured.

THE HORSE AND HIS DISEASES WILL TELL YOU of the causes, symptoms, and treatment of Strangles, Sore Throat, Distemper, Calsitis, Inflammation, Bronchitis, Pneumonia, Pleuris, Boils, &c. *Worms*, *Croup*, Sore Mouth and Ulcers, and Decayed Testis, with other diseases of the Mouth and Respiratory Organs.

THE HORSE AND HIS DISEASES WILL TELL YOU of the causes, symptoms, and treatment of Strangles, Sore Throat, Distemper, Calsitis, Inflammation, Bronchitis, Pneumonia, Pleuris, Boils, &c. *Worms*, *Croup*, Sore Mouth and Ulcers, and Decayed Testis, with other diseases of the Mouth and Respiratory Organs.
